

June 22, 2015

Mr. Lawrence Gentile, Township Manager
Mr. Mario Oliva, President Board of Commissioners
Ms. Aimee Cuthbertson
Township of Haverford
2325 Darby Road
Havertown, PA 19083

Dear Larry, Mario and Aimee:

I am enclosing the audited Financial Statement for the year ended December 31, 2014, prepared by Rainer & Company, Certified Public Accountants for you and the Township of Haverford Commissioners.

In 2014, the Haverford Township Free Library (HTFL) trimmed expenses on many levels- expenses were down from the prior year, specifically, utilities, furniture and equipment, fund raising, supplies and professional fees. A line was held on staff positions through assimilation where that could happen, and the bottom line...we netted a change to our fund balance of \$72,582. Fund reserves as of May 31, 2015 follow. The Board of Trustees, in their role as responsible stewards of township funds, has established the following categories to include monies in restricted funds for specific purposes.

- Book Funds--\$135,504 (\$95,344 unrestricted book fund + \$44,160 dedicated book funds restricted through a grant)
- Capital Funds--\$249,908
- Improvement Funds--\$218,080
- Operating Funds--\$876,067 (6-8 months emergency operating)

HTFL's strength in the community is found on many levels. The materials and programs of this Library are first rate; we provide meeting space for many community organizations and have events that are only found here in Haverford Township and the county. A recent Child Abuse Clearance Information session brought rave reviews from many different areas including representatives from the Delaware County Office of Family and Youth Services who attended to assist in the Q & A session. They reported to the Delaware County Library System and throughout many other systems across the state that other communities/libraries should replicate HTFL's "one stop shop" for the

clearance and fingerprint scan event for their community organizations. We provided public internet computers for all participants and assistance in registration. Mobile fingerprinting was done on site as a courtesy through Staffing Plus of Haverford as their way to give back to the community.

One of the other areas where the Library shines is through its staff and the great customer service provided to each and every resident, going above and beyond. They have truly embraced our mission.

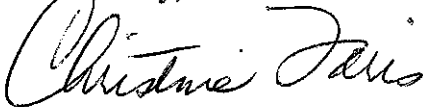

From the Board of Trustees of HTFL, and the Staff, I would like to thank all of you, Lori Hanlon-Widdop, and the Board of Commissioners personally for your efforts on our behalf. I would also like to acknowledge the efforts of your staff, Richard Dougherty and the staff of the Public Works Department, Chief of Police Carmen Pettine and the officers and personnel of the Police Department, as well as all first responders (EMS and Fire Departments). The assistance of so many in our day to day operation help to make Haverford Township a great community.

I thank you, Larry, for your response to our needs especially during our recent air conditioning problems and for your continued cooperation and assistance with our many day to day challenges.

As always, if you have any questions concerning the statements or financial information, or any other matter, please contact me.

Again, thank you.

Sincerely,

A handwritten signature in cursive script that reads "Christine D. Faris".

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
Haverford Township Free Library
Havertown, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Haverford Township Free Library, Havertown, Pennsylvania (a component unit of the Township of Haverford, Delaware County, Pennsylvania) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Haverford Township Free Library as of December 31, 2014, and the respective changes in financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Haverford Township Free Library
Management's Discussion and Analysis (Unaudited)
December 31, 2014

As management of the Board of Haverford Township Free Library, we offer readers of the Haverford Township Free Library financial statements this narrative overview and analysis of the financial activities of Haverford Township Free Library for the year ended December 31, 2014.

This discussion and analysis is intended to serve as an introduction to Haverford Township Free Library's basic financial statements. The Library's basic financial statements are comprised of 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements.

Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement Number 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued June 1999.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the Library's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Library's assets and liabilities. The difference between assets and liabilities is reported as net position. When assets increase over a period of time without a corresponding increase to liabilities, there is an increase in net position, which may indicate that the financial position of the Library is improving. Conversely, a decrease in net position over time may indicate that the financial position of the Library is declining.

The statement of activities presents information showing how the Library's net position changed during 2014. All changes in net position are reported as soon as the event occurs, regardless of the timing of related cash flows. Thus, revenues and expenditures are reported for some items that will only result in cash flows in future periods, such as prepaid expenses or accrued payroll taxes.

The government-wide statements distinguish revenues of the Library that are principally supported by the state, county and local government from revenue generating activities which recover a portion of their costs through user charges, fees and fines.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

The fund financial statements distinguish the financial activities of the governmental funds of Haverford Township Free Library.

Haverford Township Free Library
Management's Discussion and Analysis (Unaudited)
December 31, 2014

GOVERNMENTAL FUND FINANCIAL STATEMENTS (Continued)

The fund financial statements focus on individual parts of the Library's operations in more detail than the government-wide statements. The governmental fund statements tell how the Library's general services were financed in the short term as well as what remains for future spending. Fiduciary fund statements provide information about financial relationships where the Library acts solely as a trustee or agent for the benefit of others.

- **Governmental Funds** - Most of the Library's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. Governmental funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Library's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Library's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.
- **Fiduciary Funds** - The Library is the trustee, or fiduciary, for an endowment. The Library's fiduciary activities are reported in a separate Statement of Fiduciary Net Position. We exclude these activities from the Library's other financial statements because the Library cannot use these assets to finance its operations.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

FINANCIAL HIGHLIGHTS

GOVERNMENT-WIDE FINANCIAL STATEMENTS

Assets

Current assets increased by \$83,301.

Noncurrent assets decreased by \$10,523, which was a result of \$154,079 in purchases of assets and \$164,602 in current depreciation.

HAVERFORD TOWNSHIP FREE LIBRARY
Management's Discussion and Analysis (Unaudited)
December 31, 2014

GOVERNMENT-WIDE FINANCIAL STATEMENTS (Continued)

Liabilities

Current liabilities increased by \$10,719.

The Library does not have any long-term liabilities.

Total Net Position

The Library's total net position increased by \$62,059, which was the result of current year activity.

Furniture and equipment and the Library's book collection account for 32% of total net position. The Library follows a comprehensive Collection Development policy, which includes procedures for acquisition and weeding of the collection, to ensure that the book collection is current and maintained in good condition.

The following tables summarize the Library's net position and changes in net position:

Assets:

| CHANGE IN NET POSITION | <hr/> <hr/> |
| | \$ 62,059 |

Change in Net Position

The Library's total net position for 2014 increased by \$62,059. Total revenues for 2014 decreased by \$11,911. The decrease in revenue was primarily the result of a decrease of \$7,412 of contributions and gifts, an increase in Township contributions of \$11,779, a decrease of \$8,767 in fines and lost material charges, and a decrease of \$4,232 in grant revenue compared to 2013.

Total expenses for 2014 decreased by \$64,396 compared to 2013. The decrease in expenses was the result of a decrease of \$11,380 in salaries and benefits, a decrease of \$29,586 in professional fees, a decrease of \$19,720 in utilities, a decrease of \$8,182 in fundraising expenses, a decrease of \$7,312 in furniture and equipment, and an increase of \$31,522 in building and equipment maintenance.

December 31, 2014

BUDGETARY HIGHLIGHTS

The Library is not subject to a statutory budget requirement and, accordingly, budget comparisons are not presented in the financial statements. Haverford Township Free Library adopts an annual budget for internal use.

FINANCIAL POSITION

The Library's total net position increased by \$62,059 from 2013.

The Library is located in Delaware County, southeastern Pennsylvania, about 6 miles south of Philadelphia. Haverford Township has approximately 50,000 residents. The Library has broadened its services to children, teens, and adults including the delivery of Library material to homebound Township residents.

The Library enjoys a positive relationship with the community, local commissioners, and State legislatures. We have been the recipients of numerous grants and are looking forward to embarking on a strategic plan that will influence our future visions and goals.

The Library administration, staff, and Trustees are committed to ensuring that the Library provides non-discriminatory services, materials, and programs to all, whether in person or remotely.

Haverford Township Free Library
Notes to Financial Statements
December 31, 2014

NOTE 1 - Summary of Significant Accounting Policies

The Library's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the Library are discussed below.

The Library adopted the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-For State and Local Governments*; Statement No. 37, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments: Omnibus*; and Interpretation No. 6, *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*, as of January 1, 2003. Certain of the significant provisions in the Statement include the following:

- The financial statements include:
 - ◆ Management Discussion and Analysis (MD&A) section providing an analysis of the Library's overall financial position and results of operations.
 - ◆ Financial statements prepared using full accrual accounting for all of the Library's activities.

A. Reporting Entity

The Library is a component unit of the Township of Haverford, Delaware County, Pennsylvania because the Library is dependent on the Township for both financial resources and for the appointment of the four out of seven Board members.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Library.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

NOTE 1 - Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Library considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

The Library reports the following major government funds:

General Fund - The General Fund is the Library's primary operating fund. It accounts for all financial resources, except those required to be accounted for in another fund.

Capital Projects Fund - The Capital Projects Fund is used for financial resources to be used for the acquisition or construction of major capital purchases.

Additionally, the Library reports the following fund type:

Fiduciary Fund - Fiduciary Funds are used to account for assets held by the Library in a trustee capacity or as an agent for individuals, private organizations, or other governments. The Library's fiduciary fund is a private-purpose trust fund. Private-purpose trust funds account for resources, including both principal and earnings, which must be expended in accordance with a trust agreement, and are accounted for in essentially the same manner as proprietary funds.

Governmental Fund Balances

The Library has adopted GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions as of January 1, 2012. The intention of the statement is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the Library's financial statements. The statement establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - Amounts that can be used only for specific purposes because of state or federal laws, or externally imposed by grantors or creditors.

NOTE 1 - Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Governmental Fund Balances (Continued)

Committed - Amounts that can be used only for specific purposes determined by a formal action by the Board of Directors resolution.

Assigned - Amounts the Library intends to use for a specific purpose. Intent can be expressed by the Board of Directors or by an official or body to which the Board of Directors delegates the authority.

Unassigned - Amounts available for any purpose. Positive amounts are reported only in the General Fund.

D. Capital Assets

Capital assets, which include leasehold improvements and equipment, are reported in the government-wide financial statements. Capital assets are defined by the Library as assets with an initial, individual cost of more than \$500 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| | |
|-------------------------|------------|
| Leasehold Improvements | 20 Years |
| Furniture and Equipment | 3-10 Years |
| Book Collection | 5 Years |

E. Cash Deposited in Financial Institution

The Library maintains cash balances at two financial institutions. The accounts in these financial institutions are insured by the Federal Deposit Insurance Corporation. In the normal course of business, the Library may have deposits that exceed the insured balances.

F. Exhaustible Collections and Books

Collections and books that are exhaustible are capitalized; books used in the circulating library have not been capitalized because their estimated useful lives are less than one year.

G. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 1 - Summary of Significant Accounting Policies (Continued)

H. Income Taxes

Haverford Township Free Library is exempt from federal income taxes under Section 501(c) (3) of the Internal Revenue Code.

Management has determined that there are no uncertain tax positions that would require recognition in the financial statements. If the Library were to incur any income tax liability in the future, interest on any income tax liability would be reported as interest expense, and penalties on any income tax would be reported as income taxes. Management's conclusions regarding uncertain tax positions may be subject to review and adjustment at a later date based on ongoing analysis of tax laws, regulations, and interpretations thereof as well as other factors. Generally, federal, state, and local authorities may examine the Library's tax returns for three years from the filing date and the current and prior three years remain subject to examination as of December 31, 2014.

NOTE 2 - Revenues

Haverford Township Free Library is considered a component unit of the Township of Haverford, Delaware County, Pennsylvania. The majority of the Library Board is officially appointed by the Township Board of Commissioners. The Library receives a substantial amount of its support from the Township. During 2014, the contributions from the Township totaled \$1,088,144. A significant reduction in the level of this support, if this were to occur, may have an effect on the Library's programs and activities. In addition, the Township allows the Library free use of the building that houses the Library. The estimated value of the rental expense and other related expenses amounted to \$300,000 for the year ended December 31, 2014.

NOTE 3 - Deposits and Investments

Deposits - As of December 31, 2014, the total carrying amount of the Library's deposits was \$1,250,851, and the corresponding bank balance was \$1,296,287.

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library does not have a policy for custodial credit risk. The bank balances are covered by federal depository insurance.

Custodial Credit Risk - Investments - For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The Library has no investment subject to custodial credit risk.

Interest Rate Risk - The Library has no formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk - The Library has no investment policy that would limit its investment choices to certain credit ratings.

Concentration of Credit Risk - The Library has no investment policy that would limit the amount the Library may invest in one issuer.

NOTE 6 - Pension Plan

The Library participates in the Township of Haverford's Civilian Employee Pension Plan. The pension plan is funded by employee contributions, state aid, and if necessary, the Township. Benefit and contribution provisions are established by Pennsylvania law; principally, the Pennsylvania Municipal Pension Plan Funding and Recovery Act 205, and may be amended only as allowed by such law. Library employee contributions are 4% of gross earnings per month. The state aid received is based upon the number of active pension plan members' salaries and the pension plan's funding requirements (minimum municipal obligation) and the amount of employee contributions. The Library contribution was \$63,294 for the year ended December 31, 2014.

The Library offers a defined contribution plan for new full time employees. The employees can contribute up to 2% of eligible wages. The Library contribution was \$1,043 for the year ended December 31, 2014.

NOTE 7 - Subsequent Events

The Library has evaluated subsequent events through May 21, 2015, which represents the date the financial statements were available to be issued.
